IQ Business Group - Texas DIR CPO-4822 - Brand / Product Price List 10/13/21

Brand	Product Name	Part Number	Product Descrption	MSRP	DIR Discount %	Customer Price with Texas DIR Admin Fee
M-Files	M-Files Online Core Edition - Named User	ON-CR-N	An entry-level offering for smaller and simpler workloads on customers' servers. Leverage the power of M-Files' unique metadata architecture, workflows and permission management.	$480	25.00%	$362.70
M-Files	M-Files Online Core Edition - Concurrent User	ON-CR-C	An entry-level offering for smaller and simpler workloads on customers' servers. Leverage the power of M-Files' unique metadata architecture, workflows and permission management.	$1,440	25.00%	$1,088.10
M-Files	M-Files Online Core Edition - Read Only User	ON-CR-R	An entry-level offering for smaller and simpler workloads on customers' servers. Leverage the power of M-Files' unique metadata architecture, workflows and permission management.	$96	25.00%	$72.54
M-Files	M-Files Online Standard Edition - Named User	ON-ST-N	Provides comprehensive feature set for building intelligent content management solutions leveraging M-Files Intelligent Metadata Layer® in the cloud or on-premises.	$624	25.00%	$471.51
M-Files	M-Files Online Standard Edition - Concurrent User	ON-ST-C	Provides comprehensive feature set for building intelligent content management solutions leveraging M-Files Intelligent Metadata Layer® in the cloud or on-premises.	$1,872	25.00%	$1,414.53
M-Files	M-Files Online Standard Edition - Read Only User	ON-ST-R	Provides comprehensive feature set for building intelligent content management solutions leveraging M-Files Intelligent Metadata Layer® in the cloud or on-premises.	$96	25.00%	$72.54
M-Files	M-Files Online Professional Edition - Named User	ON-PR-N	Extends the standard functionality with integrations to multiple line-of-business applications and office productivity suites and enables implementation of more advanced document control solutions.	$880	25.00%	$664.95
M-Files	M-Files Online Professional Edition - Concurrent User	ON-PR-C	Extends the standard functionality with integrations to multiple line-of-business applications and office productivity suites and enables implementation of more advanced document control solutions.	$2,640	25.00%	$1,994.85
M-Files	M-Files Online Professional Edition - Read Only User	ON-PR-R	Extends the standard functionality with integrations to multiple line-of-business applications and office productivity suites and enables implementation of more advanced document control solutions.	$96	25.00%	$72.54
M-Files	M-Files Online Enterprise Edition - Named User	ON-EN-N	Designed for managing business-critical workloads in compliance with different industry regulations.	$1,104	25.00%	$834.21
M-Files	M-Files Online Enterprise Edition - Concurrent User	ON-EN-C	Designed for managing business-critical workloads in compliance with different industry regulations.	$3,312	25.00%	$2,502.63
M-Files	M-Files Online Enterprise Edition - Read Only User	ON-EN-R	Designed for managing business-critical workloads in compliance with different industry regulations.	$96	25.00%	$72.54
M-Files	External Connector License (full access) per application	ON-ECLF	External Connector license must be purchased if an application reads data from M-Files via API's and publishes it to anonymous users. A common example of this would be a web application that dynamically publishes data from M-Files to the intra- or extranet visitors	$8,720	25.00%	$6,589.05
M-Files	External Connector License (read-only) per application	ON-ECLR	External Connector license must be purchased if an application reads data from M-Files via API's and publishes it to anonymous users. A common example of this would be a web application that dynamically publishes data from M-Files to the intra- or extranet visitors	$2,384	25.00%	$1,801.41
M-Files	Advanced Outlook Add-in for M-Files (per user)	RB-AOLU	Advanced Outlook Add-In for M-Files combines the familiar user experience of Outlook with the filing, searching and document management capabilities of M-Files	$144	25.00%	$108.81
M-Files	Process Maps (per user)	RB-PMAU	M-Files Process Maps puts information in M-Files in a visual context and guides users to relevant content. Graphical process maps combine and connect flowcharts with relevant data from the objects and provide action buttons within these maps.	$144	25.00%	$108.81
M-Files	SharePoint Server 2016 Connector (per user)	RB-SP16U	M-Files SharePoint Server 2016 Connector provides access via the M-Files user interface to content residing on your SharePoint Server 2016 sites. Vault users can locate, view, and edit files on the sites using either M-Files Desktop, M-Files Web, or the M-Files Mobile apps. Furthermore, users can add metadata to documents stored on the sites via M-Files and thus promote documents to managed objects. Managed objects can then be shown in dynamic M-Files views, even though the original data still resides on the SharePoint server.	$112	25.00%	$84.63
M-Files	SharePoint Server 2013 Connector (per user)	RB-SP13U	M-Files SharePoint Server 2013 Connector provides access via the M-Files user interface to content residing on your SharePoint Server 2013 sites. Vault users can locate, view, and edit files on the sites using either M-Files Desktop, M-Files Web, or the M-Files Mobile apps. Furthermore, users can add metadata to documents stored on the sites via M-Files and thus promote documents to managed objects. Managed objects can then be shown in dynamic M-Files views, even though the original data still resides on the SharePoint server.	$112	25.00%	$84.63
M-Files	SharePoint Server 2010 Connector (per user)	RB-SP10U	M-Files SharePoint Server 2010 Connector provides access via the M-Files user interface to content residing on your SharePoint Server 2010 sites. Vault users can locate, view, and edit files on the sites using either M-Files Desktop, M-Files Web, or the M-Files Mobile apps. Furthermore, users can add metadata to documents stored on the sites via M-Files and thus promote documents to managed objects. Managed objects can then be shown in dynamic M-Files views, even though the original data still resides on the SharePoint server.	$112	25.00%	$84.63
M-Files	OneDrive for Business Connector (per user)	RB-ODBU	M-Files OneDrive for Business Connector provides access to users' OneDrive for Business folder via the M-Files user interface. M-Files users can access, view, and edit files on the sites using either M-Files Desktop, M-Files Web, or the M-Files Mobile apps. Furthermore, users can add metadata to documents stored on the sites via M-Files and thus promote documents as managed objects. Managed objects can then be shown in dynamic M-Files views, even though the original data still resides in the OneDrive for Business folder	$112	25.00%	$84.63
M-Files	Amazon S3 Connector (per user)	RB-AM3U	M-Files Amazon S3 Connector provides access via the M-Files user interface to files and documents residing in an Amazon S3 repository, or bucket in Amazon S3 terms. Vault users can locate, view, and edit files in Amazon S3 buckets using either M-Files Desktop, M-Files Web, or the M-Files Mobile apps. Furthermore, vault users can add metadata to documents in an Amazon S3 bucket via M-Files and thus promote documents to managed objects. Promoted objects can then be shown in dynamic M-Files views, even though the original data still resides in an Amazon S3 bucket.	$112	25.00%	$84.63
M-Files	Additional Volume - 1M objects	CV-AV-1M	Additional volume provides licensee ability to store and index instances of files and objects above included thresholds. This option adds the stated volume.	$17,600	25.00%	$13,299.00
M-Files	Additional Volume - 10M objects	CV-AV-10M	Additional volume provides licensee ability to store and index instances of files and objects above included thresholds. This option adds the stated volume.	$160,000	25.00%	$120,900.00
M-Files	Additional Volume - 100M objects	CV-AV-100M	Additional volume provides licensee ability to store and index instances of files and objects above included thresholds. This option adds the stated volume.	$1,440,000	25.00%	$1,088,100.00
M-Files	Additional Volume - 1BN objects	CV-AV-1BN	Additional volume provides licensee ability to store and index instances of files and objects above included thresholds. This option adds the stated volume.	$12,800,000	25.00%	$9,672,000.00
M-Files	Additional Archive Volume - 10M objects	CV-AAV-10m	Cloud Archive is a more cost-efficient way to manage relatively static content in M-Files cloud. Technically this can be done by creating separate archive vaults. The archive vaults are deployed on less powerful infrastructure whereby the database operations can be about 20 times slower than in regular cloud vaults. This option adds the stated volume.	$64,000	25.00%	$48,360.00
M-Files	Additional Archive Volume - 100M objects	CV-AAV-100m	Cloud Archive is a more cost-efficient way to manage relatively static content in M-Files cloud. Technically this can be done by creating separate archive vaults. The archive vaults are deployed on less powerful infrastructure whereby the database operations can be about 20 times slower than in regular cloud vaults. This option adds the stated volume.	$576,000	25.00%	$435,240.00
M-Files	Additional Archive Volume - 1BN objects	CV-AAV-1BN	Cloud Archive is a more cost-efficient way to manage relatively static content in M-Files cloud. Technically this can be done by creating separate archive vaults. The archive vaults are deployed on less powerful infrastructure whereby the database operations can be about 20 times slower than in regular cloud vaults. This option adds the stated volume.	$5,120,000	25.00%	$3,868,800.00
M-Files	Additional On-premises Volume - 1M objects	CV-AOV-1M	Additional on-premise volume transacation for the stated amount.	$2,640	25.00%	$1,994.85
M-Files	Additional On-premises Volume - 10M objects	CV-AOV-10M	Additional on-premise volume transacation for the stated amount.	$24,000	25.00%	$18,135.00
M-Files	Additional On-premises Volume - 100M objects	CV-AOV-100M	Additional on-premise volume transacation for the stated amount.	$216,000	25.00%	$163,215.00
M-Files	Additional On-premises Volume - 1BN objects	CV-AOV-1BN	Additional on-premise volume transacation for the stated amount.	$1,920,000	25.00%	$1,450,800.00

M-Files	Additional Premium On-premises volume - 1M objects	CV-AOP-1M	High performance indexing services (IDOL) necessary for the on-prem volume	$8,800	25.00%	$6,649.50
M-Files	Additional Premium On-premises volume - 10M objects	CV-AOP-10M	High performance indexing services (IDOL) necessary for the on-prem volume	$80,000	25.00%	$60,450.00
M-Files	Additional Premium On-premises volume - 100M objects	CV-AOP-100M	High performance indexing services (IDOL) necessary for the on-prem volume	$720,000	25.00%	$544,050.00
M-Files	Additional Premium On-premises volume - 1BN objects	CV-AOP-1BN	High performance indexing services (IDOL) necessary for the on-prem volume	$6,400,000	25.00%	$4,836,000.00
M-Files	1TB Extra File Storage	CV-1TB	Cloud volume includes file storage of 1MB per object. In other words, if the subscription includes one million objects, then it also includes up to 1TB file data. On average, M-Files customers store approximately 500KB file data per object. However, in most repositories, the file data consumption is approximately 200-300KB per object.	$4,800	25.00%	$3,627.00
M-Files	Premium Backup per vault	CA-PBU	The Premium Backup service allows customers to download off-site copies of their data hosted in the M-Files Cloud.	$13,584	25.00%	$10,264.41
M-Files	Isolated Service per environment	CA-ISP	Isolated Service means that M-Files is run on a dedicated containerized environment specific to the subscription.	$7,984	25.00%	$6,032.91
M-Files	Azure Express Route per circuit.	CA-EXP	Allows to create private network connections between M-Files Cloud Vault and infrastructure on your customer's premises. ExpressRoute connections do not go over the public Internet, and they offer more reliability, faster speeds, and lower latencies than typical Internet connections. Requires CA-ISP	$19,184	25.00%	$14,495.91
M-Files	Custom upgrade schedule per environment.	CA-UPG	Allows customers to deviate from standard cloud upgrade schedule. Typically, M-Files Servers are upgraded to the latest M-Files version once a month. With this extension, customer can either schedule alternative upgrade schedule with the M-Files Team or skip some monthly updates altogether. Notice that security updates cannot be skipped or re-scheduled. Requires CA-ISP	$19,184	25.00%	$14,495.91
